

# HDP Trailer Systems

## High Mobility and Superior Efficiency

**OVER THE YEARS** Neal spray applicators have proven to be the high performance standard for professional contractors world-wide. Their rugged build and low maintenance, combined with the high volume pumping power of a Neal HDP piston pump, make them the clear system of choice. HDP Trailers deliver the power of a Neal system to and from your job site safely and efficiently. Highly maneuverable, HDP 550 and 750 Trailers are ideal for small driveways to mid-sized parking lots. The optional distributor bar and second hand wand transform HDP Trailers into super high volume sealcoat applicators for enhanced efficiency and higher production. Generation 4 pump head technology, 2.5 gallon material filters and Kohler Command Pro™ engines, all ensure peak job site performance with Neal.
